

Sign up for a Journey Kick Start!

Kodosky Center– 9am–4pm

Varying dates and programs this summer

Girls will have to complete the Take Action Project on their own after this workshop.

Provided- Books, Awards, Pencils, Patches, Activity Materials as well as Pizza and Snacks for \$45

July 19th– Think Like An Engineer STEM Journey Daisy Level!

Daisies will learn how to think like an engineer by participating in hands-on-design challenges. Activities include building a fairy house, designing a puff car, and a canyon challenge! They will also participate in an obstacle course as well as brainstorm ideas for their Take Action Project! Come join !

July 26th Think Like An Engineer STEM Journey Brownie Level

Brownies will learn how to think like an engineer by participating in hands-on-design challenges. Activities include the design of helping hands, water collection device prototypes and a pop fly challenge. They will also participate in an obstacle course! Come join the fun on this STEM Journey!

August 2nd Think Like An Engineer STEM Junior Level!

Juniors will learn how to think like an engineer by participating in hands-on-design challenges. Activities include the participate in a paper structure challenge, design an emergency shelter and create a semisonic shake table. They will also participate in an obstacle course! Get creative on this Journey!

August 16th Media Journey Cadette Level!

On this Journey, Cadettes explore the media they love, including online media, music, youtube videos, etc. They will participate in activities that show how to reshape negative media messages into more positive ones. They will explore safe ways to use social media. Come join the fun!

August 9th GIRLtopia Engineering Adventures Journey Senior Level!

Girls develop their own vision of an ideal world for girls and learn skills to make it a reality. They will participate in hands-on engineering activities , work in teams and solve problems. Using design ingenuity and engineering, girls address challenges they might encounter in the great outdoors. When electrical power, food, and a clean water source are unavailable, design water filters, wind-powered cranks, a message-carrying car, and safe shelter. Survival skills meet science!

August 23rd Engineer Your BLISS Journey Ambassador Level!

Girls will learn how to fulfill their own dreams-and how to help others realize their dreams as well. They will learn about electronics and circuitry through a series of hands-on investigations that include Snap Circuits, and conductive and insulating materials. Rounding out this unit, girls develop soldering skills and make circuits in a game board of their own design!

**Journey Kick Start Workshops 9:00am-4:00pm at Kodosky
12012 Park Thirty-Five Circle Austin, Tx 78753
Register on Ebiz by going to www.gsctx.org**
